THE FOUNDATION OF COMMUNICATION

Often in the investment world, a long-term business trend is easy to identify, but finding the right stock to buy to take advantage of that trend is anything but. Fortunately, the choice is simple for microcap investors looking to take advantage of the rapidly expanding need for cellular network capacity by owning shares in a cellular tower company, as there is only one such stock in North America: Tower One Wireless (TOWTF:OTC)

TOWERS BUILT

The Company focuses solely on a Build- to-Suit (“BTS”) strategy for Mobile Network Operators (“MNOs”) in the regions it serves. BTS means a long-term site lease is in hand before construction begins, generating attractive contractual returns.
